

Let There Be Light

Verse 1 The light is all around us
And its uses are quite clear,
The first, of course, is so that we can see!
Transparent objects let it through,
Opaque ones block it out
And shadows form where light once used to be!

Chorus *Let there be light!*
Yeh, yeh, yeh!
Let there be light!
Yeh, yeh, yeh!
Let there be light so the whole world can see!
Yeh, yeh, yeh!
Our main source is the sun,
it's been burning since day one.
Let the light shine on, shine on me!
Yeh, yeh, yeh!

Verse 2 For any object to reflect,
Its surface needs to shine,
As mirrors, or some polished metals do!
The light just bounces off them
At the angle it went on
And travels in straight lines to me and you!

Chorus *Let there be light.....*

Verse 3 To live in total darkness
Means we wouldn't see a thing!
And let's be honest, that does not seem right!
But darkness never lasts too long,
Before it's pushed aside
To make way for the coming of the light!

Chorus *Let there be light.....*

Repeat *Let the light shine on, shine on me!*
Yeh, yeh, yeh!
