

## Character information for

38 speaking parts in order of appearance.

NOTE - If you have a smaller cast, because most characters only appear in one scene, multiple parts can be played by a single child. Alternatively, for extra-large cast numbers, many speaking parts have enough lines to be divided between any extra characters you want to create.

\* A 'line' is defined as each time a character speaks - usually between one and five actual lines of text each time.
