Christmas with the **KRACKERS**

The 5 images are provided as separate hi-resolution jpeg files, in both landscape and square sizing. They are intended to be projected onto the back wall or onto white-covered display boards behind the main stage, side stage and cast seating area. If simultaneous projection onto all three areas is not possible, we recommend copying/painting the detail shown. There is also as a PowerPoint presentation for the 3 backdrops that are intended for display behind the main stage, with images appearing in the sequence they are required throughout the script.

1. The Living room/kitchen - undecorated

2. The Arctic

3. The Living room/kitchen – decorated

4. The Elves' dormitory

5. Winter scene – behind seated cast

Please note, these backdrops are available on disc or as downloads, as a separate purchase. They are not included in the digital download of the production pack.
